In today's digital era, traditional resumes alone are not enough to showcase skills and project effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievement, skills and experience.

- Brief summary of my project
- What my portfolio contains (about me, projects, skills, contact).
- Main idea: showcase personal achievement, skills, and projects.

## WHO ARE THE END USERS?

- Students (academic projects, resumes).
- Job seekers (to share with recruiters).
- Freelancers (to show clients).
- Professionals (to highlight experience and achievement).

# TOOLS AND TECHNIQUES

- Html: structure (pages, sections).
- CSS: styling (colours, layouts, responsiveness).
- JavaScript: interactively(navigation menu, animation, from validation).
- Mention code editor (VS code)or
- CODEPEN and hosting platform (GitHub pages).
